

“Ask Me Anything” AMA:
Steven Collier
*IEEE Smart Grid Expert and Director of Smart Grid Strategies for
Milsoft Utility Solutions*

The screenshot shows a LinkedIn post from the IEEE Smart Grid group. At the top left is the IEEE SMARTGRID logo. To its right, the text 'IEEE Smart Grid' is displayed. Below this is a navigation bar with links for 'Discussions', 'Promotions', 'Jobs', 'Members', and 'Search'. The main content area features a profile picture of Steven Collier on the left. To the right of the photo, the text reads: 'This is Steve Collier with IEEE Smart Grid "Ask me anything."' followed by 'Steven Collier' in blue, 'Director Smart Grid Strategies @ Milsoft Utility Solutions', and a thank you message. Below the photo is a blue 'Unfollow Steven' link. Further down, Steven introduces himself as 'I'm Steve Collier (aka smartgridman), an IEEE Smart Grid Expert and VP of Business Development for Milsoft Utility Solutions.' He then discusses the topic of the Smart Grid and the Enernet, and invites questions.

This is Steve Collier with IEEE Smart Grid "Ask me anything."

Steven Collier
Director Smart Grid Strategies @ Milsoft Utility Solutions

Thank you for taking the time to attend the IEEE Smart Grid "Ask Me Anything" session on LinkedIn.

Many thanks to Melissa Drozdowski at InterProse and my colleagues at IEEE Smart Grid for their assistance in planning and putting on this session.

[Unfollow Steven](#)

I'm Steve Collier (aka smartgridman), an IEEE Smart Grid Expert and VP of Business Development for Milsoft Utility Solutions.

Our subject matter today is, obviously, the Smart Grid. More specifically, I hope that you will have questions about the confluence of the electric grid and the Internet, something that we refer to as the Enernet.

I will try to answer your questions in the order that they are posted, so it may take me some time to answer follow up questions.

Fire away! Ask me anything.

"Lots of feedback via email, LinkedIn, even phone calls. We really 'hit a nerve' with this subject. I have found out that there are a lot of people out there, including utility customers, utility employees and vendors, that have a similar vision." –Steven Collier

Why AMAs?

- The AMA series attracted a diverse, highly qualified international audience
- The webpage where the webinars and AMAs are archived remains among the most-visited on the IEEE Smart Grid Web Portal
